

the children's young parents, and Mrs. Bud Townsend, brought them to Edmonton Saturday within a week and performed the severance near their half-year birthday, May 12.

IT HAPPENED TODAY

Cash-Counting Is Several Days Job

Miscellany

Nizam of Hyderabad may be the richest man in the world but it still takes him a few days to count his money. Money does the counting himself. His money and fabulous jewels are stored in air-conditioned vaults that only he can enter.

Latest estimate of board reported as Bombay is made by himself and a group close to him, including J. T. Paragawala, Nizam's financial adviser, shows total of nearly \$300,000,000.

New and apparently more effective method was announced by Washington of using "ultrasonic" one-time pad for communication between the United States and the Soviet Union.

Close vigil is being kept over the Altai shaft mine at Stikolien, N.S. for further explosions which of late and might have 47-year-old workers. While some victims of a blast and fire Friday night still lay in hospital—two on the danger list—other experts kept an anxious eye on the situation.

Manitoba Flood Hits New Bloods

(Continued from Page 1)

idents, leading their mayor's warning to evacuate, moved to Winnipeg and other places.

It really given parliamentary approval, they would incorporate two companies to pipe natural gas and oil from Alberta to the Pacific coast. The two companies were the Alberta Natural Gas Company and the Alberta Petroleum Company.

The companies made no changes in the two bills, after hearing testimony from officials of the companies seeking incorporation which now had two more steps to go before getting final Commons approval.

Western MPs have been holding them up since last fall, but the bill is still in the Commons. The bill is still in the Commons.

GUARANTEE FIRST

When members extended the bill, they never asked the bill until a guarantee was written into it that all oil and gas would be piped to the Pacific via an all-Canadian route.

At the two bills stood, the companies could apply to build their pipe lines either inside or outside Canada to the Pacific coast.

Parliamentary observers said while the bill might be successful, chances were good that it would pass Commons before the end of this session.

FIRST INTRODUCED

Bill to incorporate the Alberta (Natural) Gas Company was first introduced into Commons in first session of 1948. It was reintroduced in last fall's session, when it met the same fate.

Bill incorporating Prairie Transmission Lines Limited had a shorter history. It was first introduced in Commons during last fall's session. It was reintroduced in last fall's session, when it met the same fate.

Both had already passed the major hurdle in passing through the Commons, the second reading or "approval in principle" stage. They have now been studied in detail by a Commons committee.

Two Pipeline Bills Back To Commons

Commons Approval Would Just Be Start On Lengthy Road

OTTAWA, May 1.—(BUP)—The controversial oil pipe line bills returned to Commons today as first item on the order of business after getting clear scrutiny from Commons committee.

Passage by Commons, however, would mean the end of the legislative road for the bills. They would have to go through the same procedure as the Senate bill.

They were not expected to meet many stumbling blocks in the upper chamber, where Commons bill-drawers organized a kind of western scouting to build up the bills.

It really given parliamentary approval, they would incorporate two companies to pipe natural gas and oil from Alberta to the Pacific coast. The two companies were the Alberta Natural Gas Company and the Alberta Petroleum Company.

The companies made no changes in the two bills, after hearing testimony from officials of the companies seeking incorporation which now had two more steps to go before getting final Commons approval.

19-HOUR TV SHOW RAISES \$1.39 MILLION

NEW YORK, May 1.—(UP)—Canadian Million Berle's 19-hour television show brought in pledged contributions of at least \$1,394,835 to the Damon Runyon cancer fund.

Berle went on the air at 10:30 a.m. and ended his show at 10:30 a.m. Sunday. The show was broadcast continuously, except for one two-and-one-half hour period during which another TV show was presented over the same channel.

The show's total air time, thanks to the switch to late night saving time, was 19 hours instead of 20.

Work Ready For U Grads

By GORDON LEIGHTON

OTTAWA, May 1.—University undergraduates in Alberta will have difficulty in securing employment this year.

The same is true of those in Saskatchewan and G. M. Morris, president of the National Student Union, said.

He has just completed a round tour of the West and his findings derive from personal enquiries in Edmonton, Saskatoon and Vancouver.

In the latter city the situation of UBC personnel is not quite so good as in the other two provinces.

But in all three areas a certain difficulty with regard to mechanical work, electrical and chemical engineering graduates.

Comic In Marathon

NEW YORK, May 1. (AP)—Comedian Milton Berle Sunday ended a 19-hour television marathon after his wailing audience and friends pledged \$1,394,835 for the Damon Runyon Cancer Fund.

Berle broke both his endurance and money-raising efforts of last year when he jested and talked through 16 consecutive hours of television and raised \$1,390,000 for the fund for sufferers in the United States.

four victims will be held Wednesday.

Services for Mr. and Mrs. Berle and Mrs. Berle will be held at 2:30 p.m. Wednesday at Foster and McGraw's chapel. R. McDougall Thompson, assistant minister Robert United Church, will officiate. Burial will be in Beesmont cemetery.

Date of service for Mr. Campbell has not been announced. The service, however, will be held at Knox United Church, where Gerald Rogers officiating. Burial will be in Mount Pleasant cemetery.

Both Reds, Anti-Reds Celebrating May Day

By The Associated Press

Generalissimo Stalin reviewed thousands of cheering Russians today in a mammoth May Day parade celebrating International Labor Day. The Communist slogans in Moscow's Red Square were echoed around the world, fought and divided Berlin to distant Burma.

The eyes of the world, however, turned anxiously toward Berlin, where nearly 1,000,000 persons converged to hold rival Communist and anti-Communist demonstrations. Though West Berlin police were quick to suppress the first anti-Communist clashes and incidents flared Berlin police in the Soviet Sector also went out in force.

LOTS OF BUNTING

Moscow, the capital of all Communist May Day celebrations, was engulfed in a sea of Red Bunting. A military parade marched past Lenin's tomb and Stalin's reviewing stand. Overhead roared Moscow's most spectacular parade—two display of Soviet military might flanked by Stalin's son, Lt. Gen. Valeriy Stalin.

May Day, established as international labor day by the Socialist International at Paris in 1889, since has been traditionally celebrated throughout Europe.

But in the United States and Canada, Labor Day is designated as the first Monday in September.

MOCK REVOLT

And this year in the U.S. May was observed quite differently. The first anti-Communist demonstrations.

Minneapolis, Wis., had the most elaborate show, with the American Legion staging a mock "Communist

House Discusses Manitoba Floods

OTTAWA, May 1.—(BUP)—Regular business of the House of Commons was devoted to allow an emergency discussion of the disastrous Manitoba floods.

The move was initiated at the House meeting by R. B. Bennett, Liberal, whose Manitoba riding of Provencher is one of the main flooded areas of the province.

He was approved of a motion calling upon the chamber to adjourn 24 regular business to discuss a matter of "urgent public importance."

Speaker Ross MacDonald agreed the question was one of public importance and allowed Mr. Bennett to open debate.

Three Of Family Die In Plane Crash

MOUNTAIN HOME, Ark., May 1. (AP)—Three members of a St. Louis, family, lost their lives yesterday in the fiery crash of a private plane into a big, wooded area of the province.

Bill Houston, 34, St. Louis, was killed. His wife, Mrs. Houston, 34, and their 10-year-old son, John, were also killed.

Mr. Houston, a St. Louis, was killed. His wife, Mrs. Houston, 34, and their 10-year-old son, John, were also killed.

British Laborites Seen Toning Down

Nationalization Program Seems To Be On Wane

LONDON, May 1.—(CP)—British Labor party seems to be beating a strategic retreat on one of its basic socialist policies—government ownership of industry.

BAT-MAN UNSEEN

Show Stolen By 'Fara-Pig' In Air Stunt

PARIS, May 1.—(Reuters)—About 200,000 spectators, who gathered at Villacoublay airfield yesterday to watch a "bat man" plane in earth on wings fixed in his body, saw instead a squealing, wriggling pig flitting down by parachute.

The pig, dumped from a plane by a prankster, made an expert "four-point" landing. Meanwhile, the "bat man," Leon Valentin, made his descent unnoticed from another plane.

Equipped with bat-like wings, Valentin was to jump from the plane at 12,000 feet and glide down to 1,200 feet, before opening his parachute to land.

When fans were still upturned, awaiting his jump, the "bat man" came dashing across the airfield in a car to announce that it was all over.

Even the chief official observer of the French aero club's international festival had seen nothing of Valentin's descent.

Curtain Drops For Last Time

PITTSBURGH, May 1.—(AP)—The curtain came down for the last time Saturday night on the "world's perfect playhouse."

The lavishly-ornate Nixon theatre, erected 47 years of stage productions on a rolling site.

The final performance on the famed boards was Mae West's sultry "Diamond Lil."

The Nixon will be razed to make way for an all-aluminum skyscraper.

The playhouse, opened in 1902, was noted among the acting profession as one of the country's best houses.

Speeches by government leaders last week stressing the possibility of amicable cooperation between government and private industry indicate possibly a revised Socialist program.

This watering down of Labor's inward policy would serve as a double purpose in attempting to gain votes at the next election from middle-of-the-road voters and in offering a possible basis of cooperation between Labor and the Liberals in parliament.

Much attention has been directed recently to open bids for Liberal support by Winston Churchill and other Conservative leaders. But political observers recall that on the eve of the Feb. 23 general election the Liberals offered to support Labor in parliament if Labor dropped plans for nationalization of additional industries.

Saturday night, Douglas Jay, financial secretary to the treasury, said government ownership should take the place of monopoly, but a great deal of trade and production "will and should be carried on under private ownership and private enterprise."

Both Herbert Morrison and Jay expressed the view that co-operatives are a form of socialized industry that might be preferable to outright government ownership.

The speeches have been taken as a hint that there may be a substitution for nationalization in the cement, sugar and meat-packing industries—all premised in Labor's election platform.

Three Held After Trinidad Blaze

PORT OF SPAIN, Trinidad, May 1.—(CP)—Three men were charged with arson during the week-end fire which swept through several business houses here April 30, causing \$200,000 damage. Edris Jones, a furniture store proprietor, Harry Barnes were charged with setting fire to a building with intent to defraud.

The third performance on the famed boards was Mae West's sultry "Diamond Lil."

The Nixon will be razed to make way for an all-aluminum skyscraper.

The playhouse, opened in 1902, was noted among the acting profession as one of the country's best houses.

Hollywood Fire Would Help Films

Director Says Film Capital Has Lost Feel Of Real Life

By Virginia MacPherson
Exclusive to the Bulletin

HOLLYWOOD, May 1.—(UPI)—A man who's made more movies than anybody said today it would be a good thing if Hollywood burned down all the studios and moved out of town to shoot pictures.

That's Allan Dwan's opinion—when he had a laugh day. And even when everything's done along just dandy he still thinks the movie-makers ought to get out of town to shoot out their skins.

"They're lost the feel of life," Dwan said. "They're all raising money to go to the movies and drive himself to Forest Lawn."

Forest Lawn is the town's most expensive graveyard and Dwan will tell you that's where some of the "big boys" should be buried.

He told them so, too. They take it too because Dwan is just about the No. 1 veteran in the business. He got into it by mistake—back in 1917 and since then he's directed 1700 movies in 42 years.

They're almost more than anybody would want to look at in a whole lifetime, come to think of it. Dwan said he wouldn't have been in the movies were he a lot of "this junk they're turning out."

He learned the hard way. "I learned to be a director the hard way," he explained. "I came out here as an investor and an engineer. I had some work to do on a movie set and the director kept saying, 'I look over.'"

He had been doing it ever since back in the old days he whipped out three movies a week, week after week. And had fun at it.

"I still do," said Dwan, now white-haired and balding in his 60's. "The day I stop getting a bang out of it I'll quit. Go into the ground."

Dwan's all for making movies in the low down the actors' supposed to take place.

"If your locale is in Wichita, go to Wichita," he said. "And use all the Wichita natives you can. I'll tell you that. That's how you get the feel of a town."

NATURE'S CHEAPER
"It's a lot cheaper to use real trees and mountains and lakes and rivers. You don't have to foot the bill for making up fake ones that always look like fake ones."

If they would let him, Dwan would probably use natives for the leading roles, too.

"They would be more natural," he argued. "And show me the town that doesn't have one or two born actors. Besides, it's not the stars that make a movie good. It's the story."

There's another pebble of his. "Screen writers have forgotten how to write real stories," Dwan said. "They may have known once, before they got to Hollywood. But a few years of this big dough and fancy living schemes we've up to a point where all they turn out the same page."

Presented by "Home and School"
Tickets: \$1.00 and 50c. at the Door

During the next few weeks Your Gas Company will be engaged in an extensive construction program in the area shown by the accompanying map. This new line is part of the pipeline system which will bring natural gas from the Leduc Oil Field to Edmonton's City-owned Power Plant.

Every possible step will be taken to perform this work with as little inconvenience as possible to the citizens of Edmonton.

Where it becomes necessary to close off some lanes or driveways for a few hours, your patience and indulgence and hope that the inconvenience will not be too great.

We appreciate the co-operation we have received from Edmonton citizens during past construction seasons and assure you of our constant desire to provide the best in Natural Gas service.

THE MAN FROM COLORADO

Inside Hollywood

By Bob Thomas

HOLLYWOOD—(AP)—Adolphe Menjou, whose dasher movie and many parts have been familiar on the screen since 1912, bemoans the lack of glamor boys in films today.

"Women now seem to prefer the rugged heman type like Lee Remick and Paul Douglas," he says. "About the only glamor boy left is Errol Flynn."

But of course, this kind of thing runs in cycles. In a few years there will be a return to the Valentino type.

While male stars are in the doldrums, the female stars are in the limelight. In fact, it is believed the young actresses are in over-glamorized that they seem to be turned out with faster precision.

"They all look alike to me," he remarked. "The established stars like Barbara Stanwyck, Claudette Colbert and others are individualistic. But it's hard to recognize the new ones."

Menjou now is performing in a 20th picture, "The Night Lady."

CAREY CONFUSES COREY
Wendell Corey is mad at MacDonald Carey. Nothing personal, mind you. In fact, they're good friends. But Corey is a bit off his head.

Some time ago a magazine ran a picture of Corey. Under the photo was the caption "Donald Corey." Then a local reviewer praised Corey's job in "Gold Diggers of 1933," which happened in 1933. Corey: Just last week a columnist ran an interview with Carey, calling him "Donald Corey."

Now Corey and Carey are going to star in a western together and Wendell expects other roles.

Provincial-Municipal Conference Asked
TORONTO, May 1.—(CP)—The annual conference of Ontario mayors and reeves, at its concluding session Saturday, by unanimous vote asked the Ontario government to convene a provincial-municipal conference to discuss the constitutional changes to be considered at the Dominion-Provincial conference next autumn.

A resolution from suburban Swanton that would limit any municipal annexation or amalgamation until after a vote of property owners was deleted.

Security Needed
GRANBY, Que., May 1.—(CP)—Prime Minister Louis St. Laurent said the Granby Chamber of Commerce Saturday that social security is the best means of preventing the Canadian citizen from being brought under an avalanche of economic pressure and hardship. He said means had to be taken to guarantee the security to the working man engaged in earning his living in industrial organizations.

East Navigation Opening Solves Job Situation

PONT WILLIAM, Ont., May 1.—(UPI)—The 1960 navigation season opened here and in Port Arthur Saturday and officials were confident the lakeland unemployment problem was solved for the summer.

Canada Steamship Lines package freighter Henry's docked here at 10:30 a.m. Saturday to open the season. The lake vessel City of Hamilton arrived in Port Arthur minutes later.

Capt. A. Francis, skipper of the Henry's, said a job had been secured for the first ship to reach the lakeland this year. The engineer of the vessel received a check of \$1,000 from the chamber of commerce.

Opening of the shipping season meant employment for some 2,000 workers.

Rail Lines To Negotiate With Unions

OTTAWA, May 1.—(CP)—Canada's two major railways today agreed to negotiate with the unions they were willing to negotiate a settlement of a wage dispute with some 214,000 employees on the basis of two recent federal conciliation board reports.

The Canadian Pacific Railway and the Canadian National Railways emphasized that the additional costs involved can only be met by increasing the charges for their services to the public.

The railways estimated implementation of the board's findings would cost between \$19,225,000 and \$27,000,000 annually.

SEVENTH RACE—5:00 p.m. 4-year-olds and up. 1 mile. Post 5:00.
1. Earl Green 215
2. Earl Green 215
3. Earl Green 215
4. Earl Green 215
5. Earl Green 215
6. Earl Green 215
7. Earl Green 215
8. Earl Green 215
9. Earl Green 215
10. Earl Green 215

The unions had asked for reductions in the work week from 48 to 40 hours with a five-day week and no loss in take-home pay, plus wage increases above that of from seven to 10 cents an hour.

The railway's acceptance of the board's findings was contained in a joint letter delivered to Mr. Mitchell today. The letter was signed by S. F. Dingle, vice-president of the CNR and N. R. Crump, CPR vice-president.

The aid will be made available under the government's \$3,000,000 revolving loan fund.

The revolving loan fund makes a total of \$3,000,000 available to school divisions this year, and provides that 12 per cent of school building needs will be given each division as a grant.

At least 20 school divisions in Alberta will be given grants to help with the cost of financing new buildings.

PUMP FLOODS ITSELF OUT

HANNA, May 1.—Casting in one of the town's water wells gave way during the night but the pump kept on working.

By morning the foundation of pump house had washed away and the pump had fallen into the hole created by the water.

It took a week to repair the damage and install a new length of casing.

A thorough cleanup of back alleys and streets will be made Monday.

The Whitecourt and Western Lumber Companies, as well as others, A volunteer labor gang will start the cleanup.

The citizens formed a systematic garbage collection to follow up this effort.

A second meeting will be held May 12 to discuss details and cost.

C. A. Wekes was chairman of the meeting, and F. Ogden was secretary.

EDMONTON BULLETIN, Monday, May 1, 1950 7

Hardisty Population Boosted By Pipeline

HARDISTY, May 1.—Hardisty's population is growing daily.

Influx is caused by workers on the oil pipeline most of whom are bringing their trailer homes with them.

Many workers from across the border, bringing their wives and families along. Some of the school-age children are attending school here.

Three huge, double-deck bank houses are lined up along Main Street on a vacant lot, also an up-to-date, bath-house for the workers has been built.

Cafes are doing a rushing business.

The citizens formed a systematic garbage collection to follow up this effort.

A second meeting will be held May 12 to discuss details and cost.

GARDEN ALL PLANTED

HANNA, May 1.—Mr. and Mrs. Dan Rosner have planted more than 100 plants in their garden.

They have their garden all planted during the week-end.

During the week-end, Mr. Rosner, through seedling, has planted in the first part of his garden him unable to work some time.

Surviving besides her husband is a brother William Adams, Edmonton, and a sister Mrs. W. Watt, Rockyford.

Water and Gas Mix for Goodwill for Two Nations

on the TOWN...

By Jack DeLong

Saturday Bath Bubbles

Wonderful ideas that flashed brilliantly from the Saturday night bath:
One way to stop Doughbobs from parading in the buff: Let 'em parade all they like in the months of December, January and February only.

One reason why flying saucers have been avoiding Edmonton lately: They can't find the place under all this dust.

One sure way of beating the income tax department: Become a hobo.

One certain way to avoid a lot of worry: Enrol your youngsters in The Bulletin Whippersnaps Safety Club.

Unsolved mystery of the age: Why a guy will walk six miles clouting a little white ball but kick like a steer if the Missus sends him four blocks to the corner store.

Frank Sinatra's wife is suing Frankie for separation, alleging mental cruelty. As Frankie raked in \$1,000,000 last year, I'd say off-hand the mental cruelty will really start when Mrs. Sinatra is separated from all that lettuce.

Neat Booklet

That's a new, bright little official booklet about Edmonton. Printing and pictures are high class but there's a couple of things that strike me as being kind of funny.
For one thing, the first page carries the picture of His A. J. Hooke and a message from Alberta's Minister of Economic Affairs.

Then on page two a Premier Manning's picture and his message.
You don't see Mayor Sydney Parsons or the aldermen until you look at page three.

A reliable grapevine report informs me that pictures of the mayor and aldermen came very neatly being left out altogether. There had to be a hasty makeover of the book or that would have happened.

It's a nice, neat and informative book just the same.

Summer and vacation days are just around the corner. Vacation days will be a lot happier for parents if their children have had safety training. Enrol your youngsters in The Bulletin Whippersnaps Safety Club.

The First 20 Years

It's kind of nice when a fellow is proud of the fact he has been married to the same woman for 20 years. That's why I'm noting the 20th wedding anniversary of Mr. and Mrs. Ned Chisholm of 9515 74 Avenue. The Chisholms celebrated the event yesterday.

Ned is baggagemaster at the CTR station and was a hockey player and ball player of note some 30 years ago.

Ned says the first 20 years are not necessarily the hardest.

Note to parents of northern Alberta: Hurry up and enter that little cutie of yours in The Bulletin's Best Baby Contest.

Don Cameron, who served as the Alberta Liquor Control Board, has presented me with a copy of the Toronto Sidewalk Superintendents' Manual, Grade One.

It is filled with interesting information about the new subway being built in Toronto.
Don thinks Edmonton sidewalk superintendents might be interested in publishing similar manuals here on the Macdonald Hotel extension or the Dewitler Miracle Mile Project.

Elegant Elsie came up with another droll suggestion today. Elsie thinks that civic election campaigns should be held in the spring when the rival candidates wouldn't have any trouble raking up dirt.

A kindly goodnight to all and especially to golfers who are worse than they were last spring.

GASOLINE FROM Alberta oil is poured into Western Airlines' machine in midnight christening at airport. Hon. A. J. Hooke, right, assists D. J. Avon, division manager of Imperial Oil marketing section, handle hose.

Pakistan Premier Bound For Canada

LONDON, May 1.—(Reuters)

Prime Minister Liaquat Ali Khan of Pakistan arrived here by air Saturday night en route to the United States and Canada.

The wife, Begum Liaquat Ali Khan, and a number of Pakistan government officials accompanied him.

The party leaves by air for Washington Tuesday for an official visitable sources reported today.

Tennis Ace Killed

PRINCETON, Connecticut, May 1.—(AP)—Karel Koucky, 24, once one of the world's leading professional tennis stars, was killed Friday in an automobile accident, police said.

Moving Gives Bea New Tricks in Trade

By Bea Thrifty

I've been fighting against inflicting my own troubles upon the shoulders of you careworn homemakers. But it's a losing battle.

You see, gals, I'm smack in the middle of moving. Ohhh... chhhhhh, what a job and a half!

But I'm learning a lot of things and I'm losing a lot of pounds.

Shall I tell you about some of the tricks I've picked up in passing this week?

For one thing a kind new neighbour told me to give my brand new clothing a treatment before using.

She advised me to boil the cotton line for half an hour to minimize stretching... make rope easier to handle for knot tying... and untangling too.

Another gem from a similar source is about tea kettles. Scald deposit left in tea kettles may be removed by boiling one cup vinegar to a quart of water in a kettle. To prevent this scale from forming, keep an ever-soil or fat stone in your kettle. When shell or stone is covered with deposit... replace it with a new one.

Now the hand keys are another problem we homemakers must contend with. That is there's a problem of keeping the ivory keys a snowy white... instead of a dingy yellow.

Best idea I've heard of is cleaning the keys with alcohol or rubbing alcohol rather than water. Wipe the keys clean with a flannel dipped in the alcohol and dry them. They'll come out sparkling white and clean.

Those scatter rugs which would do perfectly well for the den... if the corners weren't curled... I've saved after all. The stubborn corners may be flattened by placing a flat board over the corners and placing a heavy weight on the board. Corners to match rug are cut off. Stitches will be lost in the process. But the rug is well-served, floor covering again.

Chromium table legs are apart from the table and chairs for a while. The reason is to prevent the chromium from being rubbed off by the table legs. The chromium will be rubbed off by the table legs. The chromium will be rubbed off by the table legs.

Another thing I've learned is to keep the refrigerator clean. The refrigerator should be cleaned every week. The refrigerator should be cleaned every week. The refrigerator should be cleaned every week.

And one more thing I've learned is to keep the house clean. The house should be cleaned every week. The house should be cleaned every week. The house should be cleaned every week.

So you see, moving has given me a lot of new tricks. I hope you've learned something from me. I hope you've learned something from me. I hope you've learned something from me.

Women Today

14 EDMONTON BULLETIN, Monday, May 1, 1950

NOW IS THE TIME—it makes no difference whether you are a young student, like the girl above, or the parent of grown children, you can get the same thrill from college.

WHY GROW OLD

We Are Never Too Old To Go Back To School

By Josephine Lowman

Here are two letters from the mail bag which should make many of you envious or arouse you to action!

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

DOROTHY DIX SAYS

Parents Should Prepare Teen-Ager for Marriage

DEAR MISS DIX: I have a girl of 15. I expect and hope that she will not desire to marry until she is at least in her 20's.

However, I am not ignoring the fact that many youngsters of her age are forming friendships which within a year or two may result in marriage.

I am making her understand its responsibilities and its pitfalls and preparing her for it as far as I can so that if she should suddenly get married she would be in a fair way to make a decent job of it while at the same time I am showing her the advantages of waiting a few years and the losses and disadvantages of too early a marriage.

Perhaps these youngsters should not be considering marriage now, but they are, so isn't it better to advise them concerning it than to laugh it off and have them suddenly pop up some day with a marriage license, utterly ignorant of how to make the most of the occupation which they have suddenly chosen for themselves?

T. N. B. ANSWER: These are words of wisdom which I commend to the consideration of parents, and especially to those parents who regard the puppy love of their children as a merry jest instead of the very real danger that they are.

For so one can tell when those unsophisticated infants are going to take it into their heads to get married. And Mother and Father are shocked and horrified. But the deed is done.

NAME: Tommie are married, and the fault is largely their parents' because they never taught them anything about marriage.

HAVE FALSE IDEA "They let their children get into the habit of playing with the idea of marriage, but they don't let them know that marriage is a serious thing, and that it is not a game to be played with." I am a certain age. I find that they are at least five years younger than I am and I have been indulging in the sport. Two speak of just as a matter of fact.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

My dear Mrs. Lowman: I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now. I have been thinking about going back to school for some time now.

Desire for Ritual Advantage to Mother

By Myrtle Meyer Eldred

Between two and four years of age the child suddenly becomes addicted to rituals and will be the mother who forgets or ignores those dear to him.

A ritual develops merely by the habit of repetition. The mother hangs a cloth towel on a certain place in the kitchen and, by chance, the child picks it up and puts it on the table. The child picks it up and puts it on the table.

Everything in the whole house makes a picture whose dear familiarity the child cannot bear to lose. The child cannot bear to lose the familiarity of the whole house.

Between two and four years of age the child suddenly becomes addicted to rituals and will be the mother who forgets or ignores those dear to him.

Women Today

EDMONTON BULLETIN, Monday, May 1, 1950 15

—Photo by French
TWO-DAY SESSIONS of Victorian Order of Nurses national meeting start in Winnipeg today. Edmonton delegates Mrs. R. H. Chisholm, left, Mrs. P. A. Rooney, Mrs. A. W. Hardy left Saturday for Winnipeg. They plan to return Friday.

Social and Personal

Nurses' Alumni To Hold Banquet

Annual banquet of the University Hospital of Alberta School of Nursing Alumni Association will be held Thursday in honor of the 1950 nursing graduates.

Banquet will start at 6 p.m. in the Troadero. Head table guests will include Mrs. Gordon Bell, president of the alumni association, Miss H. Penhale, Miss H. Peters and Mrs. A. C. McGowan.

During the evening, George DuPre will speak to the members and guests.

BON VOYAGE was wished to Mrs. G. Mason by members of St. Faith's WA at recent meeting. Miss Mason will spend the summer months in the old country.

EDMONTON visitors over the weekend: attendees marriage of Dorothy Ellen Quigley and John George Macdonald in St. Faith's church were Mrs. B. Payne, Woodhead, Mrs. G. Walters, Goodhead, Mrs. and Mrs. George Frost, Irene and Walter Frost, Mrs. and Mrs. H. L. Warner, Leckie, Mrs. E. Edwards, Mr. and Mrs. A. Carlson, Ed Carlson, Mr. and Mrs. H. Buchanan, Carlson.

Installation Of League Officers Impressive Service

Flowers and decorations in red, gold and green, order colors of Canadian Daughters, decked out the hall recently for installation of officers of Assembly No. 25.

Special guests were Mrs. W. Barrington, past national president, and Mrs. M. J. G. Young, vice-president.

ENGLISH visitors in Edmonton are Mrs. and Mrs. W. B. Midgley, four. Countrydale, Texas, are registered at the Macdonald Hotel.

CARNATIONS and spring flowers are the theme of the annual meeting of the University Women's Club.

Mrs. J. W. Scott and Mrs. M. E. Lazenby presided at the tea. Mrs. Lazenby, committee under Mrs. B. J. Park, served to the members and their guests.

Reta Loiselle Wed To Cpl. Chaplin

WHITEHOUSE, May 1—Early spring wedding in Sacred Heart Rectory Chapel, Whitehouse, recently united in marriage Reta Loiselle and Cpl. Richard Chaplin.

For her marriage, the bride chose a pure gingham suit with navy blue accents. She is the youngest daughter of Mr. and Mrs. Napoleon Levesque of Dawson Creek, B.C.

Max Edmund McLaughlin, formerly of Edmonton and Vermilion, was the bride's only attendant. She wore a blue dressmaker suit with pink accessories.

Both the bride and her bridesmaid wore corsages and head-dresses of pink carnations. Bridgework is the only son of B. L. Chaplin of Edmonton. He was attended by Paul Trotter as best man.

Following the ceremony, small reception was held at the home of Mr. and Mrs. Norman Smith where buffet supper for forty was served. Refreshments were served with three-course wedding cake, flanked on either side by bouquets of spring flowers.

Miss Gail Davidson as bridesmaid wore a navy suit with blue corsage and tall straw hat with red ribbon.

Capt. D. K. MacQuarrie proposed the toast to the bride. Leaving on a honeymoon to Jordan, Aleppo, home overseas, a pink suite and hat, wedding cake, and on their return the newweds will reside at Whitehouse, where bridegroom is stationed.

St. Paul's WA, present group, met at 8 p.m. May 1. W. J. L. (Mrs. L.) University Avenue, Netherbury at 8 p.m.

University Chorus To Perform Tonight At Education Bldg.

First stop of University Mixed Chorus in its annual spring tour will be the auditorium of University school.

Student choristers will perform tonight featuring compositions by Elgar, Healy Willson, Tchaikovsky, Purcell and Brahms as well as folk songs and deers' spirituals.

Their appearance here is sponsored by the University Home and School Association. Friends of tonight's concert will be for the school library fund.

Since its first concert in 1945, the mixed chorus has won enthusiastic audience response. Each season requests pour in from Alberta towns and cities for appearance of the chorus.

Two chartered buses filled with folk songs and deers' spirituals.

Australia Faces Two Big Issues

Family Allowances, Banking Provide Legislative Battle

By Louis L. Leck

SYDNEY, Australia, May 1.—(CP)—Prime Minister Menzies' Coalition and the Labor opposition in Australia currently are at odds over two significant domestic issues—family allowances and banking.

Preliminary Survey Starts On Resources

NEW YORK, May 1.—(CP)—The preliminary work has begun on a general economic survey of New Zealand by a United States team advising firm. It was announced Sunday.

Wallace K. Harrison, president of the IBC Technical Services Corporation, said one of the firm's specialists now in New Zealand is ready to begin discussions with government and other leaders.

The one-year survey of the province's economic resources is being made under an agreement between IBC and Premier Joseph Smart.

IBEC, a subsidiary of International Basic Economic Corporation, will also make recommendations for possible methods of financing development.

The survey of economic resources will give special consideration to world market analysis, fishing, pulpwood, power and mining while among the fields investigated IBC Technical Services was organized in 1948 to provide technical services in the field of food products and economic development.

It complements the objectives of the parent company, which is engaged in business enterprises primarily in the field of food products and distribution.

JACOBY on Canasta

FOR BEGINNERS

The bonus for a canasta is either 500 points (no wild cards) or 300 points (one or more wild cards).

These bonuses belong to you only when the hand ends; you cannot count them while the hand is still being played.

For example, you can't count a canasta bonus to make the maximum amount for a first meld. If you put down seven fours, the value of the meld is only 30 points.

50 points for each four. If you eventually be worth 500 points to your score, but you cannot count those bonus points until the hand ends.

It is not necessary to make a canasta all in one play. A matter of fact, this is very rare. Usually, you put down a meld of three or four cards to start the hand. Then you and your partner add to the meld—sometimes only one card at a time.

Any canasta must include at least four natural cards. Ordinarily, therefore, a canasta may include no more than three wild cards. There are rare exceptions.

In this rule, you may use more than three wild cards provided you begin with four natural cards. To begin with, you add provided you add the value of the extra wild cards at no lower than the minimum count for the initial meld.

Save these simple instructions. If you're a beginner, you'll soon be able to profit from the first hand. In the second part of each article, you'll see an experienced player. He'll show the first hand to teach the game to others.

FOR EXPERIENCED PLAYERS

"My partner took the first discard, which was quite reasonable," said a "New York Times" columnist who was not playing the game but practically every card player knows what his partner's discard means.

It also means surely you know. When you pick up a substantial pile you should try to make it possible for your partner to pick up some extra cards. If this can be arranged, you can discard later in taking the discard pile, thus keeping complete control.

There is little point in taking the pile at any time, because you would get only four cards, of which one would be your previous discard. If you pass the pile up your partner has a chance to take a second pile.

There is some question about passing up the pile twice in a row. It then contains extra cards and is a valuable property. You should feel fairly good if your partner's discard later gave the pile to the enemy.

In short, in this situation you should not take a four-card pile. You should consider, however, an eight-card pile. It is a good position on the probable risk of losing the pile to the enemy.

Narcotics Stolen From MD's Office

VANCOUVER, May 1.—(CP)—Three amphetamine pills were found in a doctor's office in Vancouver after an estimated \$10,000 in narcotics.

Police said the thieves entered the three shops after first breaking into Dr. L. K. Baker's office, then searching for the pills in a examination room which had the three other premises.

Cigarettes and several other items were taken as well as the narcotics.

BETTER USE SEEN FOR ATOM BOMBS

MONTREAL, May 1.—(CP)—Prime Minister St. Louis said here yesterday that he does not think the atom and the hydrogen bombs will destroy the world.

Speaking at the Loyola college annual convocation breakfast, he said: "I do not believe that Providence made these discoveries for the destruction of mankind but for the betterment of the world."

However, he added, "the world needs a spiritual rebirth if man is to cope with the latest scientific discoveries and apply them to good use."

BERLIN, May 1.—(AP)—The 15th anniversary of Adolf Hitler's presumed death passed Sunday without public mention of his name in Berlin. One of the city's newspapers referred to Germany's one-time Führer.

Stikker, Netherlands foreign minister, was chosen by delegates from the 18 European areas represented in the council, known formally as the organization for European economic cooperation. He is keeping his job as foreign minister, but will devote most of his time to OEEC.

As the new "front man" for the Marshall Plan, the 50-year-old Stikker is a "political opportunist," a reviewer of the foreign press is at odds with one of the participating European countries where a new phase of work is taken to seek a solution with them.

IMPRESSIVE RECORD Stikker has an impressive record. At various times he has managed

Stikker Stickler For Overcoming Troubles

THE HAGUE, May 1.—(AP)—For Dutch Unipko Stikker, his new job as general chairman of western Europe's Marshall-Plan council is just one more assignment in a lifetime career of getting people together.

Stikker, Netherlands foreign minister, was chosen by delegates from the 18 European areas represented in the council, known formally as the organization for European economic cooperation. He is keeping his job as foreign minister, but will devote most of his time to OEEC.

As the new "front man" for the Marshall Plan, the 50-year-old Stikker is a "political opportunist," a reviewer of the foreign press is at odds with one of the participating European countries where a new phase of work is taken to seek a solution with them.

IMPRESSIVE RECORD Stikker has an impressive record. At various times he has managed

to bring together labor and management, Hitlerites and Indonesians, Liberals and Labor.

He started preparing during the German occupation of the Netherlands for the post-war "foundation of labor," an organization aimed at developing cooperation between labor and management.

After the war he became increasingly disaffected with the government's attitude on business and organized a political party in 1946, calling it the "Party of Freedom."

This merged with a group of former Liberal-Democrats in 1947, becoming the "party for freedom and democracy." Stikker continued as

president. After the 1948 elections in which Stikker was elected to the senate, he defended the interests of his party on social and economic issues and Indonesia, where his party opposed the cabinet-labor "severance of Indonesia" policy.

With the formation of a new Dutch cabinet in July 1948, he was made minister of foreign affairs.

Regina, Hamilton Singers Triumph

MONTREAL, May 1.—(CP)—Soprano June Marie Kowalewski of Regina and William Blaine Williams, a baritone from Hamilton, last night were announced winners of the second CBC French network singing contest, no future stellas for their future stars.

Each was awarded a \$500 cash prize and a 26-week CBC engagement by Dr. Augustin Frigon, CBC general manager.

Nearly 700 candidates from eight provinces were auditioned for entry in the contest.

Teen-Ager Shoots Boy 'Just For Curiosity'

ANNVILLE, Tenn., May 1.—(CP)—The 16-year-old son of a route home and charged with a day, police said.

It was only upon King's arrest at the juvenile home that it was found that the boy had been shot. Woodward had been a "pupil" there in a program for "slow" students, "but he never gave us a moment's trouble," said a school official.

"It was really rare," the high school officer Carl Hunch said, "to have a 16-year-old kid shoot a 15-year-old kid. Woodward had been a pupil there in a program for 'slow' students, 'but he never gave us a moment's trouble,' said a school official.

Two boys were rounded up after the 16-year-old kid shot a 15-year-old kid. Woodward had been a pupil there in a program for "slow" students, "but he never gave us a moment's trouble," said a school official.

leaving him in all that traffic. He was really rare," the high school officer Carl Hunch said, "to have a 16-year-old kid shoot a 15-year-old kid. Woodward had been a pupil there in a program for 'slow' students, 'but he never gave us a moment's trouble,' said a school official.

CBC Wins Seven Education Honors

28 Awards Made By Ohio State University Institute

COLUMBUS, O., May 1.—(CP)—The Canadian Broadcasting Corporation Sunday won seven of the 28 awards made by the Ohio State University Institute for Education by Radio.

In its 14th annual exhibition of educational radio programs, the institute gave the National Broadcasting Company 10 ratings, the CBC and the Columbia Mutual Broadcasting Service, four. With the exception of "one-time broadcasts," to be named later, all awards were given to programs, series, not individual programs.

The CBC's ratings were in the following classifications:

1. Religious programs—"Stories from the Bible," special commemorative.
2. Cultural programs—"Stage Series" (first award), "CBC Wednesday Night" special award.
3. Public Affairs—"The Search of Citizens" (first award).
4. Public Affairs, talks and discussions—"In Search of Our Values" (first award).
5. Children's programs—"Cuckoo Clock House" (first award).
6. Canadian national school broadcasts—"This is Newfoundland" (first award).
7. Designed for school use—"Children of Other Lands" (first award).

Less Taxes In Resources Developed

GRABBY, Que., May 1.—(CP)—Prime Minister Louis St. Laurent said new tax incentives for the provinces to develop resources in the Atlantic provinces. He said the new law would encourage the provinces to develop their resources and that the federal government would share in the cost of the development.

St. Laurent said that the new law would encourage the provinces to develop their resources and that the federal government would share in the cost of the development. He said that the new law would encourage the provinces to develop their resources and that the federal government would share in the cost of the development.

Strachey Rejects Red Peace Offer

EDMONTON, Alberta, May 1.—(CP)—War Minister George Strachey Sunday rejected a peace offer from the Soviet Union, saying it was a "red baiting" tactic.

Strachey said that the Soviet Union's offer was a "red baiting" tactic and that the Canadian government would not accept it.

Out Of Frying Pan

EDMONTON, Alberta, May 1.—(CP)—The Canadian government is looking for a way to get out of the frying pan of the current economic situation.

African Factions In Spear Battle

DURBAN, South Africa, May 1.—(AP)—A heavily-armed force of police Saturday was rushed to the Mamelodi district of Johannesburg to quell thousands of Africans in two factions fighting with guns and spears.

A fury of hand-to-hand and fighting broke out after a meeting Thursday, although the meeting ceremonies themselves ended quietly.

Mamelodi district is about 10 miles north from the Natal coast town of Stanger.

By late in the day police had quelled most of the disturbances.

Causes and damage were not immediately known.

Babies' New Shoes

BOSTON.—(UP)—One of the top turn-of-mind operators on the Boston and Maine railroad is a woman.

Miss Butler took the job during the war when men were scarce.

She said she is now amazed "when I go to the shops and see 30 minutes of shoe-making, sewing and cutting shoes presented as if they were the normal British way of life."

Dr. Sumner said he believed that the United Nations development program to establish a new world order is the best way to achieve peace.

Canada-U.S. C of C Plans For Northwest

ASHEVILLE, N.C., May 1.—(AP)—Four working projects to improve trade and defence co-operation between the United States and Canada were adopted here Saturday by committees representing the Chambers of Commerce of both countries.

The Canada-United States committee drafted three proposals, including the Yukon and Alaska.

The Northwest Development Committee also adopted a plan to improve trade with the Yukon and Alaska.

Arthritis Drug Output Speed Up

CHICAGO, May 1.—(AP)—An ingenious method of "locking" water out of a frozen solution, thereby speeding up the output of vital arthritis drug, has been developed by a team of scientists at the University of Illinois.

The new drug is a powerful anti-inflammatory agent and is expected to be marketed within a few months.

The drug is a powerful anti-inflammatory agent and is expected to be marketed within a few months.

Communist Court Jails Officials

DESSAU, Germany, May 1.—(Reuters)—The "supreme tribunal" of the Soviet Zone of Germany Sunday sentenced the former labor minister of Saxony-Anhalt, Dr. Leo Jander, to 15 years in prison.

Herwegen was one of nine defendants accused of illegal trade in goods worth more than 100,000 Reichsmarks (about \$250,000) from East to West Germany.

The court also sentenced Willi Brandt, former economic ministry official, to 15 years.

Five Injured In Sack Crash

WOOST JAW, May 1.—(UPI)—Five persons were injured yesterday in a two-car collision in Moose Jaw.

Two Regina men, Wendell Creed and John Kemet are being treated in a Moose Jaw hospital. Both are getting along well.

John D. Findlay and Lucille Neville, of Moose Jaw, and Alvin Dean of Regina were treated at hospital and discharged.

Damage to Creed's car is estimated at 700 dollars. Findlay's vehicle sustained about 300 dollars damage.

Damage to Creed's car is estimated at 700 dollars. Findlay's vehicle sustained about 300 dollars damage.

Pornography Denounced

LONDON, May 1.—(AP)—The British Summerall Board of movie insurance said Saturday that pornography movies and obscene movies are making the work of the United Nations.

Dr. Summerall told a meeting of the Married Women's Association in London that pornography is a "poison" for our young people.

See and she is also accused "when I go to the shops and see 30 minutes of shoe-making, sewing and cutting shoes presented as if they were the normal British way of life."

Dr. Summerall declared: "We see the United Nations development program to establish a new world order is the best way to achieve peace."

Dr. Summerall declared: "We see the United Nations development program to establish a new world order is the best way to achieve peace."

FIRST CLASS of Alberta petroleum engineers was honored Saturday. Ren Kinsley, points out his photo to Grant Spratt, president Western Canadian Petroleum Association at Macdonald hotel function.

Canadian Oil Engineers Not Getting Work

Only two of 16 men in the first class of petroleum engineers graduated from a Canadian university have jobs.

"We think attention should be drawn to this," J. W. Greig, assistant professor of petroleum engineering at University of Alberta, said Saturday night at a banquet given by the U. of A. graduates. Western Canadian Petroleum Association sponsored the banquet.

Young graduates made clear that introduction of the oil engineering course two years ago to students who had taken two years of basic engineering led them to stay in Canada and find work.

STAYED IN CANADA

It was the same story for his husband's friend, Vic Bellini, another graduate. "George and I have been working together at the same oil company, have shared the same ambitions about oil engineering since we were kids," Bellini said.

R. J. Kinsley came to U. of A. after two years in engineering at University of Saskatchewan.

at Vermilion. "After my discharge I intended taking two years of engineering here then go to University of Oklahoma for an oil engineering course. The oil course here opened at just the right time for me."

It was the same story for his husband's friend, Vic Bellini, another graduate. "George and I have been working together at the same oil company, have shared the same ambitions about oil engineering since we were kids," Bellini said.

R. J. Kinsley came to U. of A. after two years in engineering at University of Saskatchewan.

Direct Air Route To Coast Seen

TCA Official Says Service May Be Inaugurated By Fall

Direct TCA service between Edmonton and Vancouver may be inaugurated this fall, William F. English, vice-president in charge of overland, said here today.

Mr. English said that inauguration of the direct plane service will depend on completion of four radio range and navigation aid stations that must be built in the Rocky Mountain region.

This work will be carried out by Dominion Department of Transport, which will man and maintain the stations.

LOCATION UNSTATED

The vice-president said he can not state definitely at this time just where the range stations will be located, but the direct route from Edmonton will join the route now being operated through the Rockies via Calgary at Vancouver, B.C.

The new route will cut 20 to 40 minutes from the present schedule of North Star airlines between Edmonton and Vancouver.

Vancouver-bound planes now fly a southerly course from Edmonton, turning up with existing radio range stations at Cowley, west of Calgary.

Mr. English said traffic is holding up well on the TCA domestic system, although it was down slightly in the first part of April, due to bad weather.

NEW LINES WELCOME

The TCA executive does not think the operations of American air lines in and out of Edmonton will be bad for TCA business.

He said he welcomes the new lines as beneficial to the air travel industry as a whole.

Mr. English is attending a dinner being held for officials of Northwest and Western Airlines in honor of their opening of new services in and out of Edmonton.

Head offices of the TWA operation are in Winnipeg.

Eire Trains Stop

DUBLIN, May 1 — (AP) — Irish service to the Republic of Ireland stopped early this morning. Stoppage on the government-operated line followed an unofficial strike by engineers and firemen at Limerick in a dispute involving pensions.

Workers in Dublin Cork and other centres walked out in support.

AA Holds Meet

SYRACUSE, N.Y., May 1 — (AP) — Alcoholics Anonymous, holding their third annual regional conference here yesterday, selected Toronto for the convention next year. More than 1,000 AA members from New York state and Canada were present.

CLERGY END MEETING HERE

Social and welfare problems occupied the attention of the annual conference of Alberta Ukrainian Catholic clergy, last concluded here.

Over 30 priests met under Most Rev. Neil N. Savary, OSBM, apostolic exarch for Western Canada, at the conference hall of the Holy Trinity Residence.

Speakers were: Rev. S. Shevchuk, OSBM, superior of the Basilian Fathers, Edmonton; Rev. Dr. M. Sapich, Rev. J. Sawicki, OSBM, Rev. M. Duda, Rev. S. Duda, and Rev. V. Soroka.

Atom Bomb Craft Ready

WASHINGTON, May 1 — (AP) — Admiral Forrest P. Sherman, chief of United States naval operations, said the United States now has a missile that can carry a plane big enough to deliver an atomic bomb.

Appearing on the National Broadcasting Company's "Meet the Press" television program, the admiral also said that:

1. The navy has "no conclusive evidence" of foreign submarines operating off the North American coast.

2. Russia has nearly twice as many officers and men in her navy as the United States navy has, and it is "short-sighted" to underestimate Russian naval strength.

3. The United States navy would "do a good job" in defending the line of their third annual regional conference here yesterday, selected Toronto for the convention next year. More than 1,000 AA members from New York state and Canada were present.

Anglicans Ordained Kemsley Deplores Censorship Growth

TORONTO, May 1 — (CP) — Twelve were ordained as priests and it were received into the Order of Deacons at services in St. James Cathedral Sunday, conducted by Bishop Ray Inverarity of the Toronto diocese of the Church of England. At a similar service next Sunday, Rev. H. H. Bagg, Bishop of Calgary, expects to ordain, among others, Rev. J. J. Crocker for the Calgary diocese.

Iron Horse Popular

PHOTONIA, South Africa — (CP) — Natives have been the biggest users of the Union's railways, according to statistics recently published here. Supply of sufficient coaches is a major problem for the South African Railways.

"Throughout the totalitarian world, which now covers a large part of the earth's surface, press censorship is so complete, in many other countries, it is not complete, it is severe."

A new service for EDMONTON

Fast, daily flights to Los Angeles, Denver

Today you are four hours closer to Los Angeles! Now you can board Western's big 500 mph Conair at 5:45 a.m., step off in Los Angeles at 3:20 p.m.

And you'll enjoy a new kind of air travel when you fly the Conair — a luxury airliner with an unparalleled safety record, forty king-size seats... spacious pressurized cabin... and those Conair meals are delectable!

Denver — only 7 hours, 55 minutes!

Faster, direct service, via Billings and Casper, with connections at Denver to major cities in Oklahoma and Texas.

For reservations, call 8-4595, or your travel agent.

WESTERN AIR LINES

AMERICA'S OLDEST AIRLINE

Wildcats are risky

To an oil man a "wildcat" is a well drilled in an area where oil has never been found. Drilling a wildcat is a risky undertaking and a costly one. Some wells have cost more than a million dollars—and have not been successful.

For that reason oil men make as certain as they can, before drilling, that there is a good chance of finding oil. They use the most modern instruments and skills to locate each drilling site, but still the odds are 20 to one against them. Only about one wildcat in 20 becomes a producer.

Over the past 30 years oil men have worked continuously against these odds. In western Canada Imperial alone drilled 134 wells—all dry—before the Leduc field was discovered in 1947.

But the end result has been new oil for Canada and benefits for Canadians. There are thousands of new jobs. Millions of U.S. dollars are being saved as the need for imported oil lessens. And, as another natural resource moves toward full development, the Canadian standard of living climbs higher.

These are real benefits to Canadians and they will increase as more oil is found. But to find more oil and to spread the advantages it brings, oil men must continue to work against long odds.

Sometimes a job that must be done can't be done without great risks.

Bringing you oil is a big job ... and a costly one

About Canada's Oil—Canada's proven oil reserves now amount to about one billion barrels, as compared with only 72 million barrels in 1946.

It is estimated the oil industry will spend \$150 millions for exploration and development in western Canada this year.

Last year Imperial drilled or shared in the drilling of 70 wildcat wells.

Wells drilled by Imperial to find and produce oil in Canada during 1949 totaled 231 miles in depth.

General Demand For Steel Good But Soft Spots

CLEVELAND, May 1. (AP)—Steel Magazine says today that "some soft spots" are appearing in the demand outlook, but overall conditions remain unchanged.

"A midwest producer of heavy tractors is laying off a third of its employees because of a 10 per cent drop in capacity, steel making furnaces poured out 1,915 tons a week recently," Steel reported.

Paper Profit Doesn't Help

OTTAWA, May 1. (CP)—Finance Minister Abbott made his first public statement since the election of the new government.

He explained today in a brief interview that the "paper profit" made in the sale of the Canadian National Railway was not a real profit, but a result of accounting adjustments.

PERENNIAL FAVORITE

Throughout the week, Grace Fields, British stage and screen star, arrives in Edmonton by TCA tonight for a one-night stand here Tuesday. On cross Canada tour, Grace drew audiences of 7,500 people in her opening engagements in Victoria and Vancouver.

FINANCE BRIEFS

CPR Earnings Drop During First Quarter

MONTREAL. — The Canadian Pacific Railway showed a deficit in gross earnings during the first three months of 1949 of \$2,366,721, as compared with the same period last year, it was shown today in a statement of earnings issued by the company.

Six-Minute Oil Flow At Campbell No. 4

By C. V. Myers
Bulletin Oil Editor

Redwater Leaseholds reported last night that Campbell No. 4, a dozen miles north and west of Edmonton, flowed Lower Cretaceous oil for the last six minutes of a 20-minute drill stem test. Gas came in 10 minutes and oil started to flow after 14 minutes had elapsed.

Paper Profit Doesn't Help

DAMAGE AMOUNTED to \$2,000 when this car crashed into front of Lee's Emp. Store at 1042-124 street Saturday night. Roy reading comic book near window "dived under counter" was unharmed. Crash into store followed collision of two vehicles. Impact drove car of

Louis Estrin, 11542-94 street, into store. Other vehicle involved was truck operated by Archibald Preston of Ryley. Mrs. Sarah Estrin was slightly injured in accident.

Adam's Apple May Be Mirror Of Health, Age

By Alton L. Bialesie

NEW YORK, May 1.—(AP)—Your adam's apple may become a mirror of what age is doing to you, how healthy you are staying.

It already has been found to be a fairly good indicator of how much your arteries are hardening. This hardening is one of the leading causes of death.

The studies are being made by Dr. Gustave J. Noback, associate professor of anatomy at Cornell University medical college.

CHANGES TO BONE

In childhood and youth, your adam's apple consists of cartilage of gristle. As you grow older, it slowly changes into bone through deposits of calcium. Finally, at about 75 or 80, the whole adam's apple will be bone.

Dr. Noback traced the change by x-rays of hundreds of young people. The parts of the adam's

apple which have changed to bone show up as white areas on the x-ray picture.

When half of the adam's apple has changed to bone, there's a good chance that your arteries have started to harden, Dr. Noback discovered.

A man of 25, whose adam's apple is like that of a man of 75, is probably aging much more rapidly than normal, Dr. Noback said.

OTHER DEFECTS

He is investigating whether the adam's apple changes may also be related to other defects of aging, such as brittleness of bones and the ability of the eye to adjust to x-rays of hundreds of young people. The parts of the adam's

it's Spring—

HANNA STORES HIT BY FIRE

HANNA, May 1.—Smoke and water damage to Ideal Grocers and Dry Goods and Marshall's Well's store, resulted from a fire Saturday evening in the basement of the former.

No estimate of loss was made but it was expected to be heavy. Cause of the fire was not known.

Ideal Store is owned by Wm. Parker and Robert Wm. and the Marshall's Well's store by L. D. Wawm.

ORATONNA, Man. L.—AP.—A fire Sunday night destroyed a building on the river bank stream, mysteriously blew up a bridge. No one hurt.

Veterans Of Two Wars To Meet At Winnipeg

WINNIPEG, May 1.—(CP)—One thousand former soldiers—old and not so old—will come here in mid-May to deal with matters that affect Canadian veterans of two wars.

Viccount Alexander, the governor-general, will open the Canadian Legion's four-day 12th annual convention May 14.

Hon. Milton S. Gregg, VC, minister of veterans affairs, will head a parliamentary delegation from Ottawa. Others will be Walter Venn, the deputy minister, and Leslie Mack, Liberal member for Winnipeg South and Mr. Gregg's parliamentary assistant.

TO TAKE SALUTE

The governor-general, grand patron of the Legion, is scheduled to reach Winnipeg Saturday, May 23. At 2:30 p.m. Sunday he will take the salute as Legion delegates march past and will place a wreath on the Cenotaph.

Much business is in prospect for the convention. Some questions likely to be discussed are:

Medical treatment regulations and pensions.

A request to the federal government for an increase in war veterans allowances amounting to \$70 a month for single veterans and \$12 a month for married veterans (present allowances are \$40 and \$70 respectively).

COMPULSORY TRAINING

Compulsory military training in the reserve forces for men between the ages of 17 and 20.

The effect of deprivation of the pound sterling on imperial postmen living in Canada.

A request for removal of sales tax and other taxes from automobiles purchased by war-impoverished and paraplegic cases.

Absorption of the criminal code to permit the building of refuges and hostels where proceeds are to be used for charitable or benevolent purposes.

The Canadian Legion was formed in 1925 to serve existing Canadian veterans' organizations.

Landlady Saved From Couch Fire

VANCOUVER, May 1.—(CP)—

Bill Greening rescued his sleeping landlady from her burning home yesterday.

Greening said he smelt smoke from his basement suite and forced his way into his landlady's suite.

He found Mrs. Dorothy Wilson, 45, asleep on her burning electric heater and carried her out. Neighbors and firemen doused the blaze.
